## **Addition of senior environmental specialist brings expertise to B&B**

B&B Consultants, Inc., a locally owned and operated firm that makes its home in offices across southern Virginia, is no stranger to growth and expansion. Most recently, B&B is pleased to announce the addition of Alexis E. Jones, M.S., LPSS, AOSE to the company's roster of talented professionals.

Jones, a resident of Emporia, brings to B&B more than 12 years of experience as a licensed professional soil scientist with extensive environmental expertise. She joins the already robust, multi-discipline firm specializing in civil engineering, water and wastewater engineering and laboratory services, structural engineering, site development, environmental studies/remediation, surveying, construction administration, and inspections.

"We are extremely pleased to bring Alexis on board with B&B," said, B&B President/Managing Partner Jimmy Epps, P.E. who oversees operations in the company's South Boston office. "We have worked on numerous projects where Alexis was a part of the overall project team, so we knew her capabilities and talent. Now we are fortunate to have her on our team at B&B."

Jones has extensive experience in wetlands delineations and wetlands permitting approval through the VDEQ and USACE. In addition, she has a large knowledge base in environmental regulations and has extensive experience working with clients/contractors to ensure environmental site compliance.

Her work will include providing turn-key environmental services to assist you in obtaining and managing construction site permits, as well as maintaining permit compliance for construction projects and sites.

"Alexis will have a presence in our projects throughout the areas we serve, not just in South Hill or South Boston," said B&B CEO/Managing Partner Sam Carroll, P.E., who oversees operations in the South Hill office. "Much like everyone on our team, Alexis will be accessible, physically present and connected with our clients. She understands the company and the high level of service we provide for all levels of customers."

Jones, who grew up in rural Minnesota, says the timing felt right for her to join B&B and – having worked with B&B on numerous projects for the past 8 years – she already had a good relationship with the company and liked the company structure.

“To join a well-respected firm in this area, and to join this team of professionals, is very exciting for me. Through joining the B&B team, I hope to provide the company, our clients, and our community with my continued commitment to the environment, as well as lending my professional expertise to aid in the development of our area,” Jones said. “I know the importance of investing in the communities in which you live and it is always my goal to do the same, whether through my job, my family or my community participation.”

Jones is a married mother of three. She serves as president of the Parent Teacher Organization at her children’s school and she is a Greenville County School Board member. She is also a board member for the Virginia Association of Professional Soil Scientists.

Since its inception, B&B Consultants, Inc. has seen continuous growth which is attributed to the firm’s commitment to responsive and responsible client interaction and professional service. Through innovative project delivery and an unwavering commitment to excellence, B&B is focused on meeting client expectations and delivering comprehensive solutions for all customers.
